WORK HISTORY

NSW Department Of Finance, Services & Innovation - **Front End Web Developer**
Haymarket, *NSW*   05/2018 - 05/2019

- I've started working in Department of Finance Services & Innovations, as a junior front-end web developer, worked as a part of different projects; OneGove creates amazing applications and web solutions for every government's agency.
- My role included creating modern applications from start to finish.
- Working with various technologies such as Angular, Html5,Css3,Javascript,Drupal,.
- I worked closely with clients ensuring that we were able to create best solution.
- Working under two senior full stack developers, I was able to learn best practices and keep up to date with the constantly changing environment.
- Experience with modern JavaScript including transpiled ES6/ES7/etc.
- Engineer solutions to complex front-end environments such as Angular, jQuery.
- Developed highly scalable APIs using various architectures such as Drupal, PHP.
- Take initiative in handling day to day task management.
- Setup and managed Atlassian suite (JIRA, Trello, Confluence, HipChat, Slack).
- Work extremely well in high pressure and close deadline projects.
- Continuously up-skill and train rolling cycle of interns on latest technologies utilized on product development.
- Highly involved with design, working with designers creating simple and user-friendly products.
- Work with third party clients.
